

HydroLyte™

Water That Fuels You

Key benefits:

- Preferred Hydration in Head-to-Head Clinical Trial Versus Leading Sports Drink
- NO Calories, Fat, Artificial Colors or Flavors, or Sugars
- Patent Pending Composition
- Bioactive Mineral Delivery System
- Fresh, Crisp Taste
- pH of 8.2 is Soothing to the Digestive System

Three Unique Delivery Systems:

- Bulk Concentrate for Bottled Water Manufacturers
- Bulk Concentrate for Individual Packaging as a Supplement for Bottled Beverages
- Powdered Form for Use in Stick Packs as a Supplement for Bottled Beverages – adds Visible Electrolytes™!

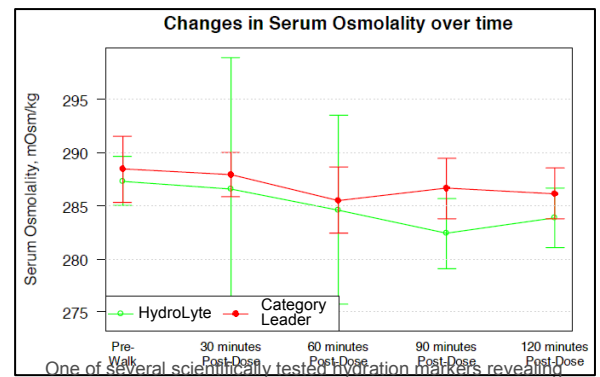

THE RESULTS ARE IN!

Scientifically formulated HydroLyte water works like the leading sports drink and is preferred 2 to 1 by healthy, active women according to a recent study.

HydroLyte is a female-centric hydraceutical with hydration efficacy equal to the leading male-centric sports beverage, yet **ZERO calories, sweeteners, or artificial ingredients**. In a recent US pilot study, several scientific markers of hydration were measured in healthy, non-smoking women after a brisk 60-minute treadmill workout in hot, humid conditions. Impressively, the results revealed no physiologically significant differences between all natural HydroLyte and the long-time category leader. However, in the subjective areas of taste, flavor, and overall consumability, **HydroLyte came out on top!**

Whether it's the general trend towards healthier living or the "uncomfortably full" feeling reported by most participants after drinking the leading brand, **HydroLyte was preferred two-to-one** for hydration, electrolyte replacement and flavor.

HydroLyte is the only nutrient rich fitness beverage that is 100% calorie free and **scientifically proven to hydrate as well as the current top tier sports drink!** Plus, with three unique delivery systems available, customizing the hydration experience is easy. Find out more about this revolutionary new water – call today!

One of several scientifically tested hydration markers revealing statistically equivalent hydration efficacy between HydroLyte and the category leader!

HydroLyte™ Liquid Concentrate – Product Specifications

ITEM NUMBER: ARX08-L

COMPOSITION: De-ionized water, USP Grade ultra-white calcium carbonate, magnesium hydroxide, dicalcium phosphate, potassium hydroxide, trace minerals (chloride, magnesium, sulfate, sodium, potassium.)

SUGGESTED RECOMMENDED DOSAGE: Varies dependent upon application, approximately 1 ounce of concentrate per 8 ounces of purified water.

pH: 10.0 - 12.0

MICROBIOLOGICAL: Aerobic Plate Count - 3,000 CFU/g max, Yeast / Mold - 100 CFU/g max, Coliforms - 10 CFU/g max, Staphylococcus Aureus - Negative /10g, Pseudomonas Aeruginosa - Negative /10g, E. Coli - Negative /10g, Salmonella - Negative /10g

HEAVY METALS: <0.25 ppm lead, <0.002 Heavy Metals, <0.50 ppm Mercury, <3.0 ppm Arsenic

PACKAGING: 1 gallon or 30 gallon propylene drums.

RECOMMENDED STORAGE: Containers should be stored tightly sealed in a cool dry place. Shelf life is three years from date of manufacture when stored in original, unopened container.

HydroLyte™ Powder – Product Specifications

ITEM NUMBER: ARX08-P

COMPOSITION: USP Grade ultra-white calcium carbonate, magnesium hydroxide, dicalcium phosphate, potassium hydroxide, trace minerals (chloride, magnesium, sulfate, sodium, potassium.)

SUGGESTED RECOMMENDED DOSAGE: Varies dependent upon application.

pH: 10.0 - 12.0

MICROBIOLOGICAL: Aerobic Plate Count - 3,000 CFU/g max, Yeast / Mold - 100 CFU/g max, Coliforms - 10 CFU/g max, Staphylococcus Aureus - Negative /10g, Pseudomonas Aeruginosa - Negative /10g, E. Coli - Negative /10g, Salmonella - Negative /10g

HEAVY METALS: <0.25 ppm lead, <0.002 Heavy Metals, <0.50 ppm Mercury, <3.0 ppm Arsenic

PACKAGING: 25 kg Poly lined Kraft bags

RECOMMENDED STORAGE: Bags should be stored in a cool dry place. Shelf life is three years from date of manufacture when stored in original, unopened container.
